

RICO STRENGTHENS ITS COMMUNITY INVOLVEMENT

LIVE UNITED

FOR IMMEDIATE RELEASE

(August 8, 2016 – Medina Ohio) David Llewellyn, Vice President of Operations at Rico Manufacturing, joins the Board of Trustees for the United Way of Medina County.

The United Way of Medina County has been bringing people together from the neighborhoods, local businesses, faith groups, nonprofit organizations and our schools to tackle important issues in our county for the last 87 years. They are part of a network of over 1,800 organizations across the United States and 40 countries around the world, dedicated to improving the lives and strengthen the communities.

United Way of Medina County envisions a community that fosters hope and opportunity for everyone....

- Where all children receive a quality education that offers a pathway to economic mobility and a bright tomorrow.
- Where the cycle of poverty and financial dependence ends and productive livelihoods begin for the disadvantaged among us.
- Where everyone receives effective health care that improves our quality of life.
- Where all stakeholders come together to set measurable goals and achieve them.

David's role on the Board of Trustees is to ensure that the United Way of Medina County remains focused on its mandate of advancing health and human services within the county by focusing on three targeted areas: Education, Income/Financial Stability, and Health. We meet numerous times throughout the year to discuss varying strategic issues facing the UWMC and make decisions in support of the community we serve.

Rico Manufacturing is proud to be fabricators of the world's finest specialty lift trucks. RICO has pioneered the design, development and manufacture of specialized lift trucks with capacities ranging from 1,000 to more than 400,000 lbs.
