

RICO'S TAC-BOT IS READY FOR DUTY

FOR IMMEDIATE RELEASE

(April 26, 2017 – Medina, Ohio)

BPR-Rico Manufacturing continues to live by their Mission Statement in being a leader in the community by giving back to the local law enforcement departments. Rico recently donated three, \$12,000 Tac-Bots to the Medina County Sheriff's Office and the Medina and Montville Township police departments. These systems will enable each Department's Officers to further develop their skills and train in a more realistic environment. The 6-foot-tall test targets are mounted on a motorized base featuring four foam-filled tires. The robot weighs about 327 pounds and can travel at a top speed of about 7 mph.

RICO CEO Dave Mueller stated "Hopefully, that's what these Tac-Bots provide: The ability to provide a little bit more realistic training scenario and something that is more interactive, it's not just honing your skills and techniques on a paper target that's very two-dimensional. We create these 3-D environments with high-fire scenarios."

Members of each of the law enforcement agencies, in addition to a Montville Trustee, and the Mayor of Medina were all on-site for the official presentation on Wednesday, April 26th at Rico's headquarters in Medina.

Rico Manufacturing is proud to be fabricators of the world's finest specialty lift trucks. RICO has pioneered the design, development and manufacture of specialized lift trucks with capacities ranging from 1,000 to more than 400,000 lbs. RICO's diverse customer base includes the industrial, military and commercial markets. For more information, contact Jennifer Gray (330) 723-4050 ext. 256 or visit www.RicoEquipment.com
